STATE OF NEVADA
TOTAL ASSESSED VALUES
FISCAL YEAR 2008-09

FOREWORD

The Statistical Analysis of the Roll, compiled by the Division of Assessment Standards, lists descriptive statistics pertaining to each county's reported assessment activity. It contains the total assessed values for all categories of property, the number of parcels or assessments, the number and value of exemptions, and the acreage in each real property category. Under NRS 361.390, each county assessor must prepare and file with the division specific statistical reports for all categories of property. Assessors report secured roll data by August 10th, unsecured roll data by March 5th of each year and both the secured and unsecured roll data again by October 31st.

The charts display the statistics reported by the county assessors graphically. The format continues to incorporate the goals established by the joint efforts of the Assessors' Association of Nevada and the Division of Assessment Standards. These goals include producing an accurate statistical composite of the data reported by the assessors and the Centrally Assessed Section of the Department of Taxation. In addition, the data must agree with the statistics reported by the assessors on separate reports required by either law and regulation, or asked for by the Nevada Legislature, the legislative counsel bureau, the state budget office, and the division. This report must:

Account for 100 percent of the value of all property within each county, whether taxable or exempt.

Help standardize the use of land use codes.

Account for all the acreage within the county. This statistic should include all acreage, whether taxable or exempt.

Reflect accurate numbers of exemptions and the total value they represent.

This report makes a ten year comparison of assessed values and graphically displays the trend in total assessed value for each county and the State as a whole. The counties continue to improve in uniformly coding and reporting the required data, and only a few inconsistencies remain. These relate mostly to exempt value amounts and the correct number of parcels, acres and assessments.
