SHELLIE HUGHES  
*Executive Director*

May 22, 2025

To: All Assessors

Re: Improvement Factor

### NEVADA TAX COMMISSION NOTICE OF DECISION

The matter of the 2026-2027 Improvement Factor Study, came before the Nevada Tax Commission (the "Commission") for consideration on May 7, 2025, after due notice to each County Assessor. The commission reviewed the Statewide Improvement Factor and the report of the Department. The Department discussed how the factor reflects the change in cost in the Marshall and Swift Manual from January 1, 2024 to January 1, 2025. Pursuant to NRS 361.261, each County Assessor notified the Commission that he or she approved the proposed Improvement Factor or re-cost annually. This matter came before the Commission for approval.

### DECISION

The Commission, having considered all evidence and testimony pertaining to the matter, hereby adopts the 2026-2027 Improvement Factor Study at 1.00 as reported by the Department for use by the County Assessors pursuant to NRS 361.261.

FOR THE COMMISSION:

A handwritten signature in black ink, appearing to read "Shellie Hughes".

SHELLIE HUGHES  
Executive Director  
Nevada Department of Taxation

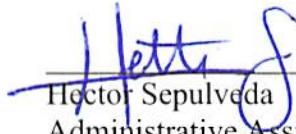

cc: Cheryl Erskine, Coordinator of Assessment Standards

**NEVADA TAX COMMISSION**  
**May 7, 2025**

**TOPIC:**

Approval of the 2026-2027 Statewide Improvement Factor

**AUTHORITY:**

NRS 361.260(5) requires the county assessor to determine the assessed value of property not reappraised either by (a) Determining the replacement cost, subtracting all applicable depreciation and obsolescence, applying the assessment ratio for improvements, if any, and applying a factor for land to the assessed value for the preceding year; or (b) Applying to the assessed value for the preceding year a factor for improvements, if any, as adopted by the Nevada Tax Commission in the manner provided by NRS 361.261.

**RECOMMENDATION:**

The Department recommends adoption of the 2026-2027 statewide Improvement Factor of 1.00, as detailed at page 1 of the Report.

**EXPLANATION:**

The Department proposes application of a statewide improvement factor of 1.00. The Department calculates the improvement factor based on the change in costs reported by the Marshall and Swift Costing Service from the previous year. NRS 361.261 requires the Department to propose any improvement factors on or before February 1st of each year. Then, on or before May 15<sup>th</sup> of the same year, each county assessor shall notify the Tax Commission that he/she either approves or objects to the proposed factors that are applicable to the county he represents. If any county assessor objects, the Tax Commission shall hold a hearing on the proposed factors and make every effort to reconcile the objections. All counties have approved the 2026-2027 improvement factor.

**APPLICABLE STATUTES AND/OR REGULATIONS:**

NRS 361.260(5)

NRS 361.261

# REPORT

## 2026-2027 IMPROVEMENT FACTOR

NRS 361.260(5) provides that assessors may either apply a factor to improvements in non-reappraisal areas or they have the option of determining the replacement cost and subtracting all applicable depreciation and obsolescence for improvements. The Department calculates the improvement factor based on the change in costs reported by the Marshall & Swift Costing Service from the previous year.

NRS 361.261 requires the Department to propose any improvement factors on or before February 1st of each year. Then, on or before May 15<sup>th</sup> of the same year, each county assessor shall notify the Tax Commission that he/she either approves or objects to the proposed factors that are applicable to the county he/she represents. If any county assessor objects, the Tax Commission shall hold a hearing on the proposed factors and make every effort to reconcile the objections. All the county assessors have indicated their approval of the improvement factor for **2026-2027**.

Legislative history and the minutes of Tax Commission meetings since 1981 indicate the purpose of the factor is to keep properties not reappraised at a similar level of assessment with properties that are reappraised. Typically, reappraised properties reflect the inflationary trends affecting new construction. However, the county assessors are only required to reappraise once every five years. If an improvement factor is not applied to non-reappraised properties during the interim between reappraisals, over time there is the potential of a large upward spike in assessed value to catch up with the inflationary trends of the previous four years. The improvement factor provides a means to ensure a stable property tax environment and avoids unanticipated valuation increases.

The Department annually conducts a study of the Marshall & Swift cost manual, by region, to determine the increases or decreases in typical building costs.

For the **2026-2027** tax cycle, the Department recommends that a statewide factor of **1.00** be applied to non-reappraised improvements. This is a statewide average supported by the source listed above. The factor represents building cost trends but does not include all applicable depreciation and obsolescence, which must be calculated at the local level. The factor is contained within the range of reasonable representations of cost changes. A statewide factor displays less volatility than regional factors while still maintaining values between the mandated range of 32% to 36% required by NRS 361.333 and improving uniformity among jurisdictions.

## STUDY OF MARSHALL & SWIFT COSTING SERVICE COST MANUAL

Tracking changes in costs reported by the Marshall & Swift Costing Service is important because, pursuant to NAC 361.128 (2)(b), county assessors are required to use:

The standards in the cost manuals, including modifiers of local costs, published through, or furnished by the Marshall & Swift Publication Company, as they existed on January 1 of the year preceding the current assessment year, if the executive director approves it for use by county assessors in determining the costs of improvements.

The study of the Marshall & Swift Costing Service is conducted annually by the Department. The steps include an analysis of the rate of change of regional factors for each class of construction, including five types of commercial construction and two types of residential construction. The local cost modifiers are also studied to determine the rate of change, from January 1<sup>st</sup> of **2024** to January 1<sup>st</sup> of **2025**, for each building type and applied to the regional change.

The resulting forty-nine factors are mathematically accurate, but unwieldy for assessors to apply, because it would require an individual analysis and data entry on each property to see which of the forty-nine factors is the most appropriate. To simplify the process, the Department weights the factors based on the type of construction observed statewide. This reduces the number of factors to five for commercial and two for residential. A second weighting is applied, based on the relative total assessed value of commercial to residential properties reported in the Statistical Analysis of the Roll. This results in an overall weighted factor for commercial properties and an overall weighted factor for residential properties. These two are added to produce an improvement factor by region. The average of all the regions except Las Vegas produces a weighted statewide factor. The Summary Table on page 1 shows the regional weighted average factors, as well as the weighted statewide factor of **1.00**.

These factors are produced based on data from January 1, **2024**, to January 1, **2025** and applied to improvements for a lien date in July, **2026**. The period in time is required to compile data, process it, get it approved by the Tax Commission, and then disseminated to assessors for assessments prepared in advance of the July 1, **2026**, lien date.

## **CONCLUSIONS AND RECOMMENDATIONS**

---

Regional factors based on the study of Marshall & Swift Costing Service Cost Manual are accurate and provide equalized values. However, the acceptable range of resulting ratios has a greater spread between regions. Statewide factors, barring unusual local conditions, not only provide equalized values, but also tighter uniformity among regions. Given the results of the various sources of information, the Department recommends a statewide factor of **1.00**.

## Appendix I

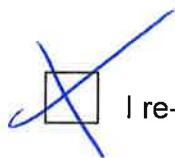

### NOTIFICATIONS FROM ASSESSORS

### Approval or Objection to Proposed Improvement Factor

Please check the appropriate boxes. If you object to the proposed Improvement Factor, please state the reason(s) why in the space provided and attach any data you may have for further consideration by the Department and the Nevada Tax Commission.

Pursuant to NRS 361.261(2) I, the Assessor for Carson City County, have reviewed the Improvement Factor Study and hereby notify the Nevada Tax Commission of the following:

I re-cost all improvements annually (approval or objection may not be indicated).

I apply an improvement factor to improvements outside the reappraisal area.

I approve the 2026-2027 proposed Statewide Improvement factor of 1.00.

I object to the 2026-2027 proposed Statewide Improvement Factor of 1.00.

I object to the proposed factor for the following reasons:

---

---

Name (please print):

Kimberly D. Adams Carson City Assessor

Signature

Date:

3/28/2025

### Approval or Objection to Proposed Improvement Factor

Please check the appropriate boxes. If you object to the proposed Improvement Factor, please state the reason(s) why in the space provided and attach any data you may have for further consideration by the Department and the Nevada Tax Commission.

Pursuant to NRS 361.261(2) I, the Assessor for Churchill County, have reviewed the Improvement Factor Study and hereby notify the Nevada Tax Commission of the following:

- I re-cost all improvements annually (approval or objection may not be indicated).
- I apply an improvement factor to improvements outside the reappraisal area.
- I approve the [2026-2027](#) proposed Statewide Improvement factor of [1.00](#).
- I object to the [2026-2027](#) proposed Statewide Improvement Factor of [1.00](#).

I object to the proposed factor for the following reasons:

---

---

---

Name (please print) : Denise L. Mondhink-Felton

Signature Denise L. Mondhink-Felton Date: April 2, 2025

### Approval or Objection to Proposed Improvement Factor

Please check the appropriate boxes. If you object to the proposed Improvement Factor, please state the reason(s) why in the space provided and attach any data you may have for further consideration by the Department and the Nevada Tax Commission.

Pursuant to NRS 361.261(2) I, the Assessor for Clark County, have reviewed the Improvement Factor Study and hereby notify the Nevada Tax Commission of the following:

- I re-cost all improvements annually (approval or objection may not be indicated).
- I apply an improvement factor to improvements outside the reappraisal area.
- I approve the 2026-2027 proposed Statewide Improvement factor of 1.00.
- I object to the 2026-2027 proposed Statewide Improvement Factor of 1.00.

I object to the proposed factor for the following reasons:

---

---

Name (please print) : Briana Johnson

Signature  Date: 4/7/2025

### Approval or Objection to Proposed Improvement Factor

Please check the appropriate boxes. If you object to the proposed Improvement Factor, please state the reason(s) why in the space provided and attach any data you may have for further consideration by the Department and the Nevada Tax Commission.

Pursuant to NRS 361.261(2) I, the Assessor for Douglas County, have reviewed the Improvement Factor Study and hereby notify the Nevada Tax Commission of the following:

I re-cost all improvements annually (approval or objection may not be indicated).

I apply an improvement factor to improvements outside the reappraisal area.

I approve the 2026-2027 proposed Statewide Improvement factor of 1.00.

I object to the 2026-2027 proposed Statewide Improvement Factor of 1.00.

I object to the proposed factor for the following reasons:

---

---
